*In previous years, date listed in title was year of publication, not year of statistical data reported. Thus, the prior issue of this series, New Jersey Public Library Statistics 1981, reported 1980 public library statistics.

This report, New Jersey Public Library Statistics for 1981 (and subsequent issues), includes in the title the year of data reported.

INTRODUCTION

The New Jersey State Library each year compiles statewide library statistics to help libraries analyze and improve programs and services. Trustees and library directors use the statistics to develop and justify budgets and for comparative evaluation of programs, staffing practices and collection development. School and college library staffs use the statistics to identify interlibrary loan resources and to establish cooperative service programs.

Public library services in New Jersey are provided primarily by three types of libraries:

1) Municipal - library established by law following a referendum in which the majority of voters decide to establish such a library. It is supported by taxes and is governed by a seven-member board, appointed by the mayor, which must include the mayor and the superintendent of schools. There are 218 municipal libraries identified in the tables by an M.

2) County - library established by law following a county-wide referendum approved by a majority of voters. It is supported by taxes and governed by a board known as the county library commission, composed of five members appointed by the freeholders. There are 14 county libraries identified in the tables by a C.

3) Association - library established, governed and supported by an association of citizens. Such an association is incorporated, forms its own constitution, appoints or elects its own board and is responsible for operation of the library. It may receive tax support from the local governing body. Only those association libraries whose services are free to the public are included in the publication. Some libraries formerly listed as association libraries are now branches or stations of their county libraries. Association libraries, numbering 76, are identified in the tables by an A.

In addition, there are five joint libraries in New Jersey which are identified in the tables by a J. A joint library is established by law following a referendum in two or more municipalities which was approved by the majority of voters. It is governed by a board appointed by the mayors of the participating municipalities.

The State Library has designated 26 libraries as area libraries. Each of these libraries is a headquarters library under contract with the state for specialized services to libraries within a given geographic area. The 26 area libraries are indicated in the tables by an asterisk (*) before the library name.

Summary tables show the number and percentage of population served by public libraries (Tables 1 and 2), libraries according to size of population served (Table 3), libraries according to total income (Table 4) and libraries according to type and total expenditures (Table 5).

Tables showing individual library statistics by county and a state summary constitute the body of this publication. These data include the 1981 New Jersey state population estimate figures for population served and equalized valuation. Where a public library is supported by more than one municipality, the figures shown represent combined municipalities.

Explanations of the column headings follow:

Column Heading	Explanation
POPULATION SERVED 1981	Total population of New Jersey as of July 1, 1981, was 7,403,996, as stated in the Provisional Population Estimates for New Jersey, July 1, 1981, issued by the Office of Demographic and Economic Analysis, NJ Department of Labor (October 1982). An estimated 7,343,976 of this population were served by a public library, defined as the accessibility of a public library within a municipal boundary or service provided by a county library. The remainder of the population, 60,020, is unserved, residing in municipalities not served by a county library or any local library. The population served by a county library is the total of all municipalities which provide tax support, including the populations of the member-libraries listed below the county-library entry.
EQUALIZED VALUATION	Equalized valuation of municipalities is supplied by the Division of Taxation, New Jersey Department of the Treasury, 1981 (Conformed Copy). Amounts are shown to the nearest thousand dollars and exclude municipalities which do not officially support library services. For county libraries, the equalized valuation reported is the total of all municipalities which provide tax support.
INCOME: LOCAL TAX	Local tax support is shown as reported by individual libraries. Calculation of State Library Aid is based on expended amounts from municipal budgets.
INCOME: PER CAPITA STATE AID	Amounts shown as per capita state aid represent amounts reported as paid in October 1981 to municipalities and counties with libraries. State Aid to area libraries, research libraries and emergency aid/incentive grants are not shown in this column.
INCOME: TOTAL	Amounts shown are library operating income from all sources, but excluding the balance brought forward from the prior year. State aid to area libraries, research libraries and for emergency aid/incentive grants is included.
EXPENDITURES: SALARIES, WAGES AND BENEFITS	Amounts reported here include salaries, wages and fringe benefits paid in 1981 to all library employees, including maintenance personnel. Retirement benefits paid are excluded.
EXPENDITURES: LIBRARY MATERIALS	Included are the amounts expended for books, periodicals, newspapers, microforms, all other non-print materials and binding.

Column Heading	Explanation
EXPENDITURES: TOTAL	Total expenditures for 1981, as reported by libraries, represent current operations and exclude amounts spent for capital improvements, repayment on loans, etc. The difference of total expenditures, less those for salaries, wages and benefits and for library materials, represents all other operating expenditures.
PER CAPITA: LOCAL EXPENDITURES	These amounts are derived by dividing total expenditures by population served. This column excludes amounts paid by municipalities in support of county libraries.
PER CAPITA: EXPENDITURES INCLUDING COUNTY TAX	For county libraries and county-library members, these amounts are derived from the sum of total local expenditures and county-library tax support paid divided by population served. (While amounts paid by municipalities in support of a county library are not printed in these tables, they are included in these computations and were taken from county abstracts of ratables.)
STAFF: PROFESSIONAL CERTIFIED	Numbers appearing in this column represent librarians who hold New Jersey Professional Librarian Certifications.
STAFF: FULL TIME	In this column, the number of individuals working full-time for a minimum of 30 hours per week as of December 1981 is reported.
STAFF: FULL-TIME EQUIVALENTS (FTE)	This column represents the total of part-time and full-time employees equated to a number of full-time positions. The minimum work week is assumed to be 30 hours.
VOLUMES: OWNED YEAR END	These amounts represent the number of books reported as owned at the end of 1981. Other materials which are prepared, cataloged and recorded in the same manner as books are also reported here.
VOLUMES: PER CAPITA	These amounts are derived by dividing the number of volumes owned at the end of the year by the population served.
VOLUMES: PURCHASED DURING YEAR	This column reports the number of volumes purchased by public libraries in 1981, exclusive of gifts and volumes supplied by county libraries.
TOTAL CIRCULATION	Reported here is the total circulation of library materials, adult and juvenile, including loans of library materials in bulk to other institutions and interlibrary loans.
SUBSCRIBED PERIODICALS	Numbers shown equal reported number of paid subscription titles, including newspapers and magazines other than annuals, at the end of 1981.

Column Heading	Explanation
HOURS OPEN WEEKLY	This column reports the number of hours per week the main library was open for public service during the major part of 1981.

Averages

Averages have been calculated for county-member subtotals, county summaries, and state totals for the following columns: Per Capita Local Expenditures, Per Capita Expenditures Including County Tax, Volumes Per Capita, and Hours Open Weekly.

Notes on Table 5: "Libraries According to Type and Total Expenditures"

x. Population served totals in this table exclude the population of the three (3) non-respondent municipal and exempt libraries having a total population of 12,305.

y. Expenditures per capita in this table exclude the populations of the three (3) non-respondent municipal and exempt libraries, whereas the statewide summary sheet for the 1981 public library statistics includes these people. Hence, the variance in per-capita expenditures: $11.32 with the additional 12,305 population included; $11.34 with them excluded.

z. In computing statewide totals for this table, add together "Library Types":

Total Expends. = 1+2+3
Population = 1+2 (since 2 includes population of 3, 3 is excluded here)
Number of Libraries = 1+2+3 (note that 7 non-respondents are excluded)
Percent of State Population = 1+2, but note exclusion of 12,305 non-respondent library pops.

$$\text{Expenditures Per Capita} = \frac{\text{5. Total Expends}}{\text{5. Population}}$$
